Our seating furniture is put to the test

At IKEA we test all our sofas, armchairs, sofa-beds, and footstools to be sure that they're durable. And we're especially tough on the ones that have long guarantees. For example, we push one 100 kg weight onto the seat 50,000 times – and one 30 kg weight onto the back just as many times. We do all this to be sure that the frames retain their stability and that the cushions retain their resilience and comfort.

The guarantees we provide are proof that our seating furniture can withstand being used often and for a long time – and thereby provide an assurance for you as a customer.
